GLOBALLY MINDED. LOCALLY LED.

Our partners have the vision to empower and encourage their communities.

Grassroots Global Development Foundation was founded in 2012 with the goal of providing locally-led organizations with tools and resources to address poverty in their communities.

After years of philanthropic work in Baja Sur, Mexico, Grassroots Global founders **Bill and Onagh Ash** had a clear vision for a new foundation:

"Our family believes that education can provide you with a better life, no matter

"Ultimately, we are striving to provide our partner organizations with the tools they need to transform their vision into a reality."

what your background. Through Grassroots Global, we are reinforcing that belief by providing better support to organizations focused on women and children. This foundation uniquely provides grants and strategic capacity building to programs with the potential for social impact."

Today, the Grassroots Global team is making that vision a reality with partners and projects across Mexico and the Americas. We're excited to share more with you about our unique work!

It's critical to connect the appropriate resources with local populations who are on the front lines of tackling poverty.

Our partners are community based organizations who serve women and children impacted by poverty. Their focus areas include economic empowerment, education, entrepreneurship, food security, health, youth development, and other social change programming.

Each partner is a "locally led" organization, whose leadership is rooted in the community. As of Fall 2015, we have five partner organizations and one active special project.

"It's been very valuable to learn proven procedures for nonprofit planning from Grassroots Global. Not only does it help us to set goals, it motivates us to give our best efforts. In the end, the real outcome is a better community!"

WHY SUPPORT GRASSROOTS GLOBAL?

You believe in helping local organizations grow to their full potential.

We know that our partners have the vision to empower and encourage their communities. Our work provides tools to make that vision a reality.

You want to see resources reach grassroots organizations and leaders.

Our grant process helps us identify worthy organizations and leaders who are often overlooked by traditional funders.

You want to address poverty and its effect on women and children.

Our funding priorities identify organizations whose focus is on women and children living in poverty.

You want to help programs that are making an impact to become more sustainable.

Our approach goes beyond funding a program or project. We support building our partners' organizational capacity so that their programs can achieve a more sustainable future.

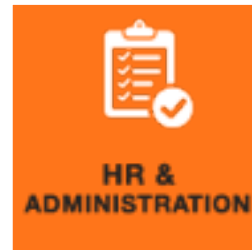

"It blows my mind that capacity building is relatively inexpensive and can create tremendous impact, yet we don't invest in it more as a field."

-Doug Bauer
Clark Foundation

Building Capacity

We believe in making an investment in grassroots organizations that grows their leadership and sustains their programs. Improving effectiveness at the organizational level is the heart of capacity building.

We offer trainings and workshops as well as individualized capacity building support for our partners in the following categories:
